

iPad® 2 Frames & Wall Mount System

Turn an iPad Into a Command Station

Turn any iPad into a Remote That Replaces All Others

Designed for Integrators

- iPad 2-ready for easy assembly: Minimize valuable labor time with our simple, secure design. No special tools required.
- iPower™ and iPCX™ iPad chargers: Unlike standard wall mounts that don't include any charging solutions, VidaBox gives you the option to provide steady, continuous power at up to 15-25 feet, or a steady trickle charge at longer distances. Every touch interface is ready to use at any time.
- Blends seamlessly into any décor: Available in seven different colors and finishes, or paint it to match your environment.
- Every interconnect is included: Complete your kit w. a VidaBox charger to have everything you'll need to mount an iPad.
- Uses standard Cat 5 cabling: Easily convert existing Cat 5 cable to an iPower™/iPCX™ cable in minutes.

This professional on-wall frame/mounting system for the iPad® 2 is the most complete and affordable iPad on-wall mounting system available, making the iPads an affordable alternative to expensive proprietary screens. Install multiple wall-mounted iPads to control TV, lighting, HVAC, security, and more. Add our custom-engineered iPower™ charger or iPCX™ kit for constant charging & peak reliability.

When it's time to install an iPad 2 wall mount, choose the one that gives you continuous recharge support and easy assembly at an affordable price.
